

## Complete state grammar

All railroad diagrams have been generated using [http://dev.outerthought.org/trac/outerthought\\_ebnfdiagram/](http://dev.outerthought.org/trac/outerthought_ebnfdiagram/).

```
"States" {
  syntax          = state_variable '=' state_expression '\\n'.
  state_variable  = identifier .
  state_expression = '{' attribute ('='| '<' | '>' | '>=' | '<=' | '!=') value '}' .
  value           = rangevalue | string | float | number | identifier | depvalue | dynvalue | wildcard .
  attribute       = identifier .
  identifier      = {character digits} .
  character       = 'a-z' | 'A-Z' | '_' .
  digits          = '0-9' .
}
```
